Warden Muise,

At the February 13th, 2020 meeting of Yarmouth Town Council, Council approved the following motion:

that Council extend the existing Mariners Centre funding agreement by 12 months and discuss a more fair and equitable formula in funding the Mariners Centre deficit before the next expiry date.

The Motion above was in response to the Argyle proposal that we continue for one more year under the present arrangement. Council was fully supportive of that pragmatic approach, considering our ongoing discussions concerning consolidation. No matter the outcome of the current discussions, we all recognize that the current situation needs to be improved, and we will look forward to improvements in our governance and funding arrangements, going forward.

Sincerely,
