Summary

The Municipality has received a Development Agreement application from Boatskeg Distilling Co. to enable an evening patio accessory to the craft distillery and lounge use on the property.

The subject site is split-zoned with Light Industrial (LI) above the ordinary high-water mark and Coastal Wetlands (CW) below the ordinary high-water mark. The current Land Use By-law (LUB) permits craft distilleries, lounge uses, and accessory evening patios which operate between 9am-9pm. Staff is proposing to go through the development agreement process for the subject site, 23 Du Pont Du Marais Chemin, in Middle West Pubnico, Nova Scotia (PID 90078452) to permit the patio component to operate past 9pm.

Financial Impact Statement

There is no immediate financial impact aside from the typical public engagement process and staffing requirements resulting from the application.

Recommendation

That the Planning Advisory Committee recommend to Council to give initial consideration to the Development Agreement Application of the subject site to allow for an evening patio use to operate between 9pm-9am. Note that the terms of the development agreement will determine the permitted duration which may be used during this period.

Recommended Motion

Municipality of Argyle Public Works Department / Community Development recommends that the Planning Advisory Committee recommend that Council:

- give first reading to consider approval of a development agreement to allow for an evening patio use to operate between 9pm-9am on PID 90078452;
- proceed to a public hearing without a second meeting of Planning Advisory Committee unless substantial comments are received from the public; and
- authorize Staff to schedule a public hearing for the application.

Planning and Development

Background

Boatskeg Distilling Co. has applied for a development agreement application to permit an evening patio use to operate between 9pm-9am (PID 90078452). The property is designated Rural Centres (RC) in the Municipal Plan, and split-zoned with Light Industrial (LI) above the ordinary high-water mark and Coastal Wetlands (CW) below the ordinary high-water mark in the Land Use Bylaw.

Adjacent properties are majority split-zoned Mixed Use (MU) above the ordinary high-way mark and Coastal Wetlands (CW) below the ordinary high-water mark. Additional nearby properties are zoned Heavy Industrial (HI) Zone and Light Industrial (LI) Zone. Figure 1 shows the context of zoning currently in the area.

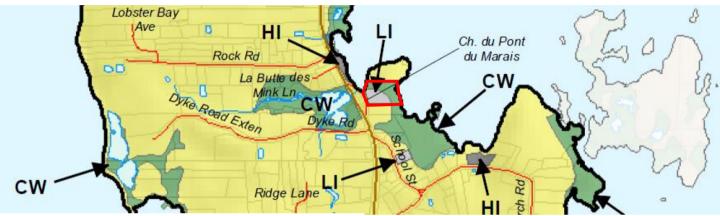

Figure 1: Zoning Map Excerpt of the Subject Property

Subject Property

The subject property is located along 23 Du Pont Du Marais Chemin, in Middle West Pubnico, Nova Scotia (PID 90078452). As illustrated on Figure 2, the total size of the subject property is approximately ±2.75 acres and has approximately 185 feet of frontage.

There are three (3) existing buildings on the subject property which were previously used as a single detached home, home-based boat building, and accessory buildings. The applicant intends to maintain two of the existing buildings as the site is redeveloped into a craft distillery, lounge, and patio use, as shown in Figure 2.

Staff are recommending that a development agreement application be applied to the subject property. This would permit the hours of operation to be controlled during the restricted hours between 9pm to 9am, through a development agreement. The development agreement can, and is proposed to, contain provisions to remove this permission for the use of the patio past 9pm if it is found to be problematic due to noise complaints or similar matters.

Policy Analysis

WSP and Staff are currently reviewing the application based on the applicable policies contained in the Municipal Planning Strategy (MPS).

Existing policies in the MPS allow Council to consider this development agreement without requiring amendments to *Municipal Planning Strategy*. The development agreement of the subject site is enabled by Policy 4.5.11 of the MPS. As indicated in the *Municipal Government Act*, there is a right of appeal option for approval or refusal of a development agreement.

Attachment A contains the draft proposed development agreement that would apply to 23 Du Pont Du Marais Chemin. Attachment B contains a preliminary table of the evaluative criteria from the enabling policies and corresponding comments from WSP related to the use of the patio to serve food and/or beverages between the hours of 9pm-9am.

Discussion

The majority of nearby properties along Highway 3 contain residential uses and are currently zoned Mixed Use (MU). Evening patio uses can generate land use conflicts with adjacent residential properties due to the generation of noise. To assist in mitigating potential issues, the draft development agreement has a number of stipulations proposed under s. 3.1.1:

- All uses permitted in the underlying zoning, as per the requirements of the Municipality of the District of Argyle Land Use Bylaw, as amended from time to time, in addition to any other uses permitted by this agreement; and
- b) The developer shall be permitted to install a patio having a maximum area of 120 square metres. The

Planning and Development

following matters shall apply to the use of the patio:

- i. The patio may be used to serve patrons alcohol with or without food;
- ii. The hours of operation for the patio shall be between 8:30am until 12:00 (midnight), and additionally, from midnight to 2:00am on Saturdays, Sundays, July 2nd, and January 2nd;
- iii. No live entertainment shall be permitted on the patio;
- iv. Background music shall be permitted on the patio at a volume that will not disturb surrounding residential uses.
- c) other uses, signage, parking or loading areas accessory to the principal use as per the requirements of the Municipality of the District of Argyle Land Use Bylaw, as amended from time to time.

Noise-related land use impacts can arise from many types of land uses, and having a conscientious operator is one of the most important steps to ensure that activities are taken out in a manner sensitive to the existing residential context of the surrounding area. If operations are problematic, and a number of complaints received, the proposed draft development agreement contains provisions where it may be discharged, and any development permits revoked without the concurrence of the property owner, as indicated below:

- 3.2.2 The Development Officer, at their discretion, may revoke a development permit pursuant to this agreement if:
 - a) the development is not in accordance with:
 - i. the Land Use Bylaw where not varied by this agreement,
 - ii. this agreement, or
 - iii. the plans associated with the approved development permit.
 - b) the permit was issued based on incorrect information provided by the applicant when applying for a development permit; or
 - c) the permit was issued in error; or
 - d) continued complaints and matters of non-compliance arise due to noise generation related from the operation of the outdoor patio use.

If this were to take place, s. 238 of the *Municipal Government Act* would apply. Since the proposed patio use on this property was not a lawful use when the current Land Use Bylaw was adopted, operation of the patio past 9pm would no longer be permitted.

Nonconforming structure or use

238 (1) A nonconforming structure, nonconforming use of land or nonconforming use in a structure, may continue if it exists and is lawfully permitted at the date of the first publication of the notice of intention to adopt or amend a landuse by-law.

Based on the above information, Staff feels the proposal is sufficiently consistent with the intent of the Municipal Planning Strategy (MPS) to proceed to a public hearing. A review of policies contained in the MPS, is indicated in more detail in Appendix B, and may be subject to modification prior to the final staff report.

Planning and Development

Public Participation

Staff will comply with Public Participation Policies of the Municipal Planning Strategy when processing this application. As per Section 206 of the Municipal Government Act, a public hearing is required for entering into a Development Agreement to hear input from the community.

Figure 2 illustrates the general process followed by the Municipality for a Development Agreement application. A newspaper advertisement will be placed in the local newspaper, VanGuard, notifying the public of the application as well as for the public hearing two weeks in advance of the public hearing. A sign will also be placed on the subject property notifying residents that an application has been received by the Municipality. A notice of the application will also be placed on the municipal website.

Staff will mailout a notice of application to all property owners within 152 meters of the subject property and a public hearing will be held prior to the decision of Council.

The public is encouraged to request additional information and clarification from Staff leading up to the public hearing if they have any questions.

Note that there is a right of appeal option for approval or refusal by Council for the adoption of a development agreement.

Conclusion

Staff will continue to review the application by Boatskeg Distilling Co. to apply for a Development Agreement (DA) to allow for an evening patio use to operate between 9pm-9am. Note that the terms of the

Applicable Policies	Staff Comments
Policy 4.5.1: It shall be the policy of Council to designate the communities of West Pubnico, Wedgeport and Tusket as Rural Centres (RC) designation on the Generalized Future Land Use Maps to accommodate a wide range of uses in a manner which is flexible and sensitive to the needs of the residents. The existing wind farm Pubnico Point will be excluded from this designation.	The subject site is within this designation.
Policy 4.5.2: It shall be the policy of Council that the intent of the Rural Centres (RC) designation is to accommodate a wide range of residential, institutional, commercial, agricultural, recreational, wind energy, and utility uses. The subject site is within the Light Industrial (LI) Zone.

Craft distillery uses and lounges are permitted uses within the light industrial zone.
Policy 4.5.10: It shall be the policy of Council that Council shall consider the following uses by site plan approval in the Light Industrial (LI) Zone: a) Small Scale Wind Turbine Generator	N/A
Policy 4.5.11: It shall be the policy of Council that Council may consider the following uses by development agreement, pursuant to the requirements of Policy 13.14 and Section 4.5, in the Light Industrial (LI) Zone: a) Aquaculture (Indoor and Outdoor) b) Drive-throughs c) Restaurant, Evening Patio Use	The proposed development agreement is for a 'Restaurant, Evening Patio Use'.

Planning and Development

Policy 8.6.4: It shall be the policy of Council to permit compatible Light Industrial uses in the Coastal Communities (CC) Zone, the Light Industrial (LI) Zone, the Business Park (BP) Zone, and the Rural Development (RD) Zone. To enter into development agreement pursuant to the <i>Municipal Government Act</i> on the terms and conditions set forth in this Municipal Planning Strategy and a development agreement shall: 13.12.1 specify the development, expansion, alteration, or change in use permitted; and 13.12.2 specify the conditions under which the development may occur; and 13.12.3 set forth the terms by which Council may terminate the agreement. 13.12.4 The provisions of the Land Use By-law shall prevail after discharge of any agreement.	The required provisions are contained in the draft development agreement.
13.14 To consider the following in addition to all other criteria set out in the various policies of this Municipal Planning Strategy, when considering amendments to the Land Use By-law, or proposals for development agreements: 13.14.3 Where a proposal is for a use which involves the advertising, sales, and/or production of production facilities for alcohol and cannabis, Council will consider the proximity and exposure of the use to areas where children and youth frequent. Council will also consider the potential negative effects on residents by odours resulting from such production facilities.	The site is not within proximity from locations children and youth frequent, and is approximately 3.5km from École Pubnico-Ouest.
Policy 13.14.4: That the proposal is not in conflict with Municipal or Provincial programs in effect in the Municipality; and that the proposal is not premature or inappropriate by reason of the: a) Financial ability of the Municipality to absorb costs related to the development; or b) Adequacy of sewer and water services, including fire flows and water pressure or the adequacy of the site for on-site services; or c) Creation or worsening of a pollution problem in the area such as but not limited to soil erosion and siltation of watercourses; or d) Adequacy of storm drainage and effects of alteration to drainage patterns, including the potential for creation of a flooding problem; or e) Suitability of the site regarding grades, soils and geological conditions, location of watercourses, marshes, bogs and swamps, and proximity to utility rights-of-way; or	 a) No financial impacts are expected to the Municipality from the proposed development. b) Servicing to the site is adequate, on-site services will need to be determined as part of detailed design. c) No concerns are expected from the proposed development. d) No drainage concerns are expected from the proposed development. e) A portion of the rear of the site has marshy conditions, but the front portion of the property appears to be developable. f) Subject site is not nearby to schools, recreation and other community facilities. This is preferable for this application. g) No significant impacts are expected to the transportation network from the proposed development. NSTAT may provide further detail on if this expectation is accurate. h) The proposed development needs to conform to zoning requirements for parking.

Planning and Development

- **f)** Adequacy and proximity of school, recreation and other community facilities; or
